

Climate Fisheries Bulletin -SEPTEMBER 2026

Lukluk blong klaemet mo solwota

El nino hemi kontinue blong stap long Pasifik.

Solwota bae hemi wom lelebet bitim nomol (25-28°C)

I nokat emi saen blong mrine heat wave long olgeta solwota around long ol aelans blong Vanuatu.

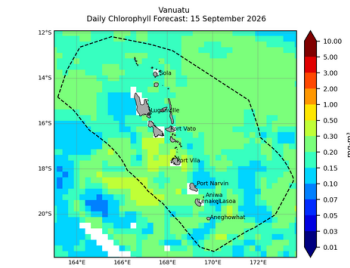

Coral Bleaching-No Stress

Long Vanuatu i nokat any saen blong korel blijng. saen blong korel i wik o ded.

Infomesen blong Taed mo Moon

Chlorophyll/ Kakae blong fis

Map i soem se i kat lelebet kakai blong fis long olgeta solwota blong Vanuatu..

Las Kwata: 4 Oktoba

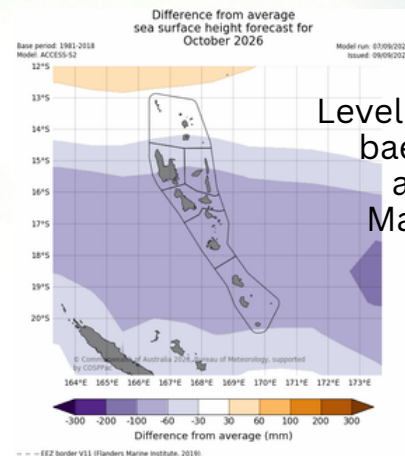

Niu Moon: 11 Oktoba

Fes Kwata: 19 Oktoba

Full Moon: 276 Octoba

Level blong solwota bae hemi bilou afarej long Manis Oktoba.

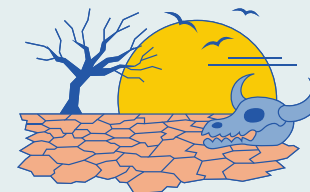

Impoten Toksave

i kat lelebet kakai blong fish long solwota, hemia minim se i kat good janis blong kasem ol pelagic fis..

Koral i stap long No stress long efri rijens. I minm se community i save continu wetem ol normal aktiviti blong solwota.

Enso hemi stap long El Nino(longfala drae taem). Tekem action blong prepare blong fesem.
